

Profile: Wilhelm Otten

Person

Dr. Wilhelm Otten
Age: 62 Jahre
Experience: 35 years
Language: German,
English

Area

Chemical Industry
Pharmaceutical Industry
Mechanical Engineering

Education

Master Mechanical Engineering
PhD Process Engineering
Executive MBA: Wharton, INSEAD

Professional Career

1988 Process development
1992 Plant Engineer
1997 Technical Controlling
2000 Head of site engineering Wesseling
2003 Head of BL Technical Service, Infracor
2008 Managing director Evonik-Röhm
2011 Head of BL Technical Service Evonik
2015 Head of BL Process Technology&Engineer.
2019 Senior Project Manager Corporate Project
2020 WOTTEN-Consulting
2011-2018 Head of NAMUR

Competencies

Process development/-optimization
Simulation/dynamic simulation
Plant Engineering/Maintenance
Engineering/project management (Small Capital
Project up to Megaprojects 500 M€)
Management projects/Change management
Digitalization strategy /-projects

Relevant Experience

Process development, capacity increase > 25%
Maintenance of chemical plants
Production related investments up to 10 Mio. €
Controlling of business processes & investments
Global maintenance projects
Site infrastructure development/projects
Business development of technical services
Operational Excellence Projects
Managing director administration & technology
Reengineering projects in technical service
Leading complex service units with >2000 empl.
Global process optimization and largescale
investment projects (1 Bill. €/a)
Initiating and managing of digital initiatives in
the area of production and technology (ALC
Data Man., 3D-Printing, Modularization,..)

Associations: NAMUR; DEXPI; VDI; Dechema;
Assistant Professor Diploma-University
90 Publications in the fields mentioned above
